

Md. HABIB

PROFILE

Aspiring **Game Developer** and CSE recent graduate with hands-on experience in **Unity (2D & 3D)** and **C#**. Skilled in building 2D arcade mechanics, interactive 3D environments, gameplay mechanics, and AR/VR applications.

Passionate about creating immersive gaming experiences and continuously improving performance, user interaction, and game design systems.

Location: Dhaka, Bangladesh

SKILLS

Game Development:

- Unity Engine (2D & 3D)
- C# Scripting
- Game Physics & Mechanics
- UI/UX in Games

AR/VR Development:

- Vuforia (Marker-based AR)
- ARFoundation (Markerless AR)
- XR Interaction Toolkit

Tools:

- Git & GitHub
- Unity Editor
- Visual Studio / VS Code

Machine Learning (Supporting Skill):

- TensorFlow, OpenCV
- Computer Vision Basics

LANGUAGES

- Bengali (Native)
- English (Professional)

INTERESTS

- 2D & 3D Game Mechanics
- AR/VR Experiences

INDUSTRIAL EXPERIENCE

INDUSTRIAL TRAINEE (GAME & XR DEVELOPER) at *Battery Low Interactive Ltd.* **Nov 2025–Dec 2025**

- ◊ Developed AR/VR applications using Unity 3D and C#.
- ◊ Implemented marker-based AR with Vuforia and markerless AR using ARFoundation.
- ◊ Designed XR interactions including grab systems and spatial UI.
- ◊ Collaborated with designers to integrate 3D assets and optimize performance.

PROJECTS

RETRO AERO FIGHTER (2D ARCADE SHOOTER) **Unity 2D, C#**

- ◊ Developed a vertical scrolling aircraft shooter optimized for Android devices.
- ◊ Implemented Object Pooling for efficient bullet management, ensuring lag-free gameplay.
- ◊ Designed core mechanics including dual firing modes and dynamic resource management.

NINJA RUNNER (2D PLATFORMER) **Unity 2D, C#**

- ◊ Built a classic 2D platformer with cross-platform input for PC and mobile touch controls.
- ◊ Programmed real-time UI updates for coin collection and clear win/lose state transitions.

VISION DRIVE (3D TRAFFIC SIMULATION GAME) **Unity 3D, C#**

- ◊ Built a 3D traffic simulation game with realistic vehicle physics.
- ◊ Implemented obstacle avoidance system and scoring mechanics.

AR OBJECT INTERACTION APP **Unity, Vuforia**

- ◊ Developed an AR app with real-time object detection and interaction.

VR INTERACTION SYSTEM **Unity XR Toolkit**

- ◊ Implemented VR locomotion and object interaction system.

AIR QUALITY INDEX PREDICTION (THESIS) **TensorFlow**

- ◊ Developed a CNN model to estimate AQI from satellite imagery.

EDUCATION

B.SC. IN COMPUTER SCIENCE & ENGINEERING *Green University* **2022–2026**

- ◊ CGPA: 3.46 / 4.00

HSC (SCIENCE) *Nakalia Monjur Qader College* **2017–2020**

- ◊ GPA: 5.00

SSC (SCIENCE) *Velayet Hossain Bahumukhi* **2017**

- ◊ GPA: 5.00

ACHIEVEMENTS

COMPETITIONS & OPEN SOURCE

- ◊ Ranked in Top 15% in Kaggle data science competitions.
- ◊ Contributed to ML-related repositories with merged pull requests.
